

CD/DVD communicator for your Desk

Small foot print design • Mixed media production • Smart technology

Burn and Print CDs and DVDs in-house like a Pro and enjoy the speed and versatility to meet your business needs

Alpha Office ONE is LSK's brand new solution to create burn and print CDs and DVDs in just a few minutes. It combines fast, automated robotic CD/DVD duplication along with full-colour, high resolution direct-to-disc printing – in a compact, smart looking desktop unit. It is a brilliant solution for distributing marketing literature, software, music or video, just-in-time releases, presentations and any other low-distribution multimedia content – *via disc* – in just minutes.

Features

- Small foot print design fits office environments
- Automated and simple operation
- Mixed media production through *five-bin* concept
- Capacity of 150 discs
- Reliable and proven automated robotic mechanism
- State of the art CD/DVD writer
- High resolution direct-to disc thermal ink jet printer
- Multiple software support (PC, Mac)
- Smart technology made for professional use

Do it yourself and save

Slash costs and eliminate outsourcing by producing even your discs in-house! From presentations to photos and drawings, software, corporate videos, catalogues, price and parts lists..., the versatile *Alpha Office ONE* handles all this business projects and many more – immediately, fast and reliable – *when you need it!*

Convenient "Disc at Once" Media Center

Alpha Office ONE is a leading edge disc publishing system ideal for office environments where multiple discs with customized printing are required. It includes both PC and Mac Software at no additional cost. Slightly larger than a desktop printer, *Alpha Office ONE* prints one disc while burning another. You can tell the duplicator to verify each disc after burning it. Discs that fail the verification process are dropped down into the separate reject bin. It is recommendable

to burn discs first to weed out bad media before spending ink. *Alpha Office ONE* also allows you to *burn-only* and *print-only*.

The *Alpha Office ONE* is able to burn a 700 MB disc in about 1.5 minutes. The six colour thermal ink-jet printer offers 4800 dpi high resolution. Printing a disc takes less than a minute, depending on the print mode and image you use. A robotic arm moves the media from start to finish. Print and burning state are continuously displayed on your computer.

Alpha Office ONE is a leading edge disc publishing system ideal for the office environment where multiple discs with customized printing are required. It is user-friendly, powerful and saves you time and money. Anyone can generate CDs in seconds.

True to life photo quality

The Printer incorporates HP's unique PhotoREt IV colour-layering technology and ColorSmart III colour optimization technology to create realistic photo images, vivid colour output, and extremely sharp text to your published CDs and DVDs. Its professional performance is reflected especially when printing photo images up to 4800 dpi. Sharpness also for fonts, eye-popping colours and smooth colour gradients characterize media printed with it.

Intuitive software features

The *Alpha Office ONE* Software gives you the right tools to burn and print the discs you need. It is user-friendly, powerful and saves you time and money - no extra training or additional software purchases are required. Anyone can generate CDs in seconds.
